

Industrial Swirl Flow Meter (Air/Gas Flow Meter)

Megitech Automation

Industrial Swirl Flow Meter (Air/Gas Flow Meter)

Swirl flow meter is the new type of flow meter with up to date technique. It integrates flow, temperature and pressure to do volume compensation

Main Characteristics : No remove parts, Anti-corrosion, stable performance, long working life, not need special protection measurement after long working hours. Adopted 16 Bit computer chips ,highly integrated, small volume, good performance. The intelligent flow meter integrates sensor ,micro-processor,pressure and temperature sensor into one part , built-in group to compact the structure , directly measure flow volume, pressure ,temperature and able to carry out volume compensation. Adopted double testing technique to improve the testing signal and to prevent the vibration of pipeline. Adopted advanced anti-vibration technique to restrain the vibration and disturbing signal from pressure fluctuation. Digital counter displays volume flow, volume flow in standard state, totalized flow ,medium pressure and temperature ,etc .Transmitter outputs frequency pulse ,4-20mA analog signal and RS485 port to connect with computer directly .The distance that signal can be output reaches to 1.2Km .Warning output for variable parameters one of which can be selected by users .Counter can be rotated from 360 angles.Battery operated or extra power supply

Application :

- *Various Gases Measurement
- *Petroleum
- *Chemical Engineering
- *Industrial gases
- *Compressor air measurement

Gas : air, oxygen, nitrogen, coal gas, natural gas, chemical gas

Features:

- No moving parts, wear resistance, structure is simple and fastness
- The allowed working temperature is wide from -20°C to +80°C
- Wide range, High accuracy
- The body Material could be aluminum or Stainless steel as per different pressure requirement
- Pulse signal output, two-wire system 4-20mA current output, RS-485 output

Industrial Swirl Flow Meter (Air/Gas Flow Meter)

Technical Data Sheet :

Process Media :

Gas and Air - Swirl flow meter with pressure and temp. Compensations mass available with Compensations

Material of construction:

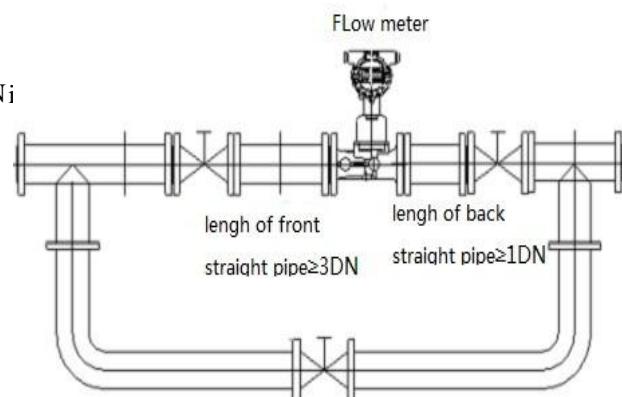

Enclosure : Aluminum Alloy / S.S.-316/S.S-304/1Cr18Ni
require

Sensor : Stainless steel 316 / Tantalum

Repeatability : 0.02%

Accuracy : 1% for gas/air

Flow range : 1.0-3600.0 m³/h;

Maximum working pressure : 86Kpa ~ 106Kpa

Fluid & Ambient temperature: -20°C to +80°C

Connection: Flange

1) Battery operated meter :

Power voltage: 3.3 V lithium batteries can be used more than 2 years in a row.

display mode:

Double row Liquid Crystal Display (LCD), as follows:

XXX. X four instantaneous flow (Nm³ / h) or Kg/h

XX. XXXXXX eight cumulative flow (Nm³) or kg

Pressure, temperature reading

Cumulative flow: automatically expand the display precision, the cumulative flow values can be reset.

Power-fail protection: instrument coefficient, the Total flow values ten years is not lost when power supply drop.

Function : Auto test meter for find problem,

2) Display with 4 to 20 mA Output

Power voltage: 24 V DC

Output signal: 4 TO 20 mA

Optional output on demand : RS-485/ ALARM/3 wire pulse output

3) Panel mount flow rate totalizer

Display flow rate and total, many optional output and 24vdc/230vAC power supply

Industrial Swirl Flow Meter (Air/Gas Flow Meter)

Flow range :

| Model | DN (mm) | Flow range (m³/h) | PN (MPa) | Pressure loss (kPa) | Material |
|----------|---------|----------------------|--------------------------|--------------------------------------|----------|
| SFM-015 | 15 | 0.3~12 | 1.6 2.5 4.0 6.3 | $\Delta P = \rho / 1.205 \times P N$ | Aluminum |
| SFM -020 | 20 | 1.2~15 | | | |
| SFM -025 | 25 | 2.5~30 | | | |
| SFM -032 | 32 | 4.5~60 | | | |
| SFM -040 | 40 | 7~70 | | | |
| SFM -050 | 50 | 10~130 | | | |
| SFM -065 | 65 | 20~300 | | | |
| SFM -080 | 80 | 30~400 | | | |
| SFM -100 | 100 | 50~800 | | | |
| SFM -125 | 125 | 80~1000 | | | |
| SFM -125 | 150 | 190~1900 | | | |
| SFM -200 | 200 | 240~3600 | | | |

Remark:

1.Precision:is confirmed after temperature and pressure compensation

2.Standard condition: P = 101.325KPa, T=293.15K

3.Application condition:

Ambient temp.: -30°C~+65°C

Humidity: 5%~95%

Medium temp.: -20°C~+80°C

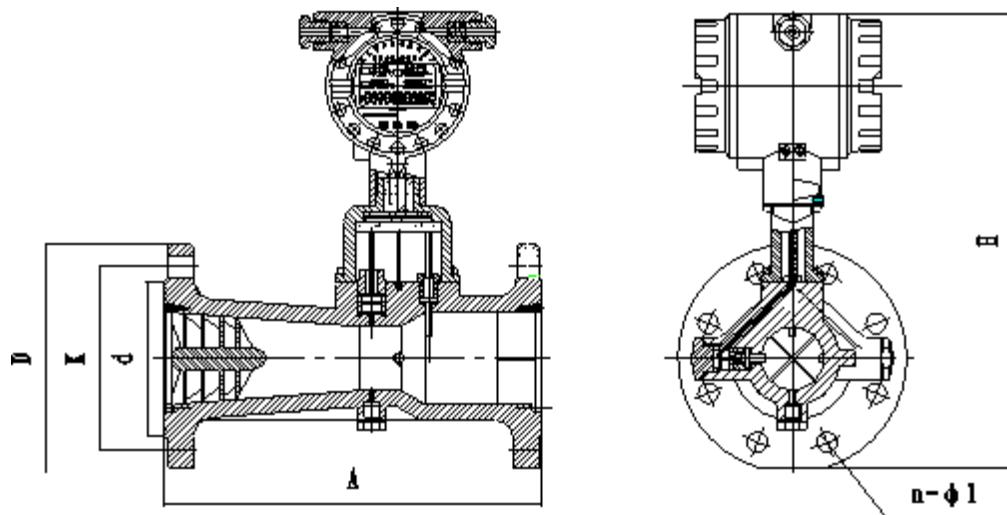

Air pressure: 86KPa~106KPa

Industrial Swirl Flow Meter (Air/Gas Flow Meter)

Dimension and size

Please refer to the following pic and table, flowmeter is flange connection.

Flange standard :GB/T9112~9113-2000

| Model | DN | Pressure (MPa) | A | H | D | K | n×d |
|-----------|-----|-----------------|-----|-----|-----|-----|--------|
| SFM -020A | 20 | 1.6、2.5、4.0、6.3 | 160 | 305 | 105 | 75 | 4-φ14 |
| SFM -025A | 25 | 1.6、2.5、4.0、6.3 | 180 | 315 | 115 | 85 | 4-φ14 |
